

- Cells - Transformed fibroblasts

- Whole Blood

- Cells -EBV-lymphocytes

- Brain - Hypothalamus

- Brain -N. accumbens

- Brain -Caudate

- Brain - Cerebellar Hemisphere

- Brain - Anterior cortex (BA24).

- Brain - Cerebellum

- Brain - Cortex

- Brain -Putamen

- Brain - Spinal cord (cervical c-1)

- Brain - Amygdala

- Brain - Frontal Cortex (BA9)

- Brain - Hippocampus

- Brain - Substantia nigra

- Muscle - Skeletal

- Liver

- Pancreas

- Ovary

- Thyroid

- Prostate

- Adrenal Gland

- Kidney - Cortex

- Stomach

- Pituitary

- Testis

- Heart - Atrial Appendage

- Heart - Left Ventricle

- Esophagus -Gastroesophageal Jn.

- Skin - Unexposed (Suprapubic)

- Skin - Sun Exposed (Lower leg)

- Esophagus - Muscularis

- Colon - Sigmoid

- Esophagus - Mucosa

- Artery - Coronary

- Artery - Aorta

- Artery - Tibial

- Lung

- Adipose - Subcutaneous

- Adipose - Visceral (Omentum)

- Breast - Mammary Tissue

- Nerve - Tibial

- Minor Salivary Gland

- Colon - Transverse

- Small Intestine - Terminal Ileum

- Spleen

- Bladder

- Uterus

- Cervix - Ectocervix

- Vagina

- Cervix - Endocervix

Clusters
